START RIGHT Use Haines Good Seeds and Plants

For a great many years I have specialized in recommending and furnishing those seeds and plants that I know will give satisfaction. I have built up my business on the idea that furnishing good seed and good plants will win for me an ever increasing circle of good friends. I have not been disappointed and I want all my readers to know I appreciate the confidence placed in me and the many orders I have received. This year I have a wonderful lot of good seeds and plants and I can assure you that if you want good seeds and plants to start with, you can get them here.

There is no finer hobby for a woman than gardening

I believe there is no hobby so safe and sane for a woman as gardening. It centers about the home; the children and other members of the family may have a part in it; friends may enjoy it, and the influence of its sweetness and beauty reaches far and wide.

One need not be a great artist, a gardener of experience or a person of wealth or ease to indulge in and get something from gardening. As a hobby it gives you material accumulation in things of use and beauty—it creates things others admire and wish to see and have. It gives you inspiration, bodily rejuvenation and mental relaxation. And best of all, it gives you fun if it is practiced as a real hobby.

Give Your Children Beautiful Surroundings

How will your children remember the home of their childhood? Will they think of it as a drab, unattractive place or will they think of it as the loveliest place they ever knew? This is all up to you. It takes more than love and shelter to make a lasting impression of beauty on a child's mind, for children respond to color and beauty just as do their fathers and mothers.

Make your home beautiful with trees, shrubs and plants and flowers and you can count on it as one of the greatest gifts you can make to your children. A yard with shade and flowers provides both school and playground for them. It spells many happy hours of play. It stimulates their imagination and increases their knowledge of nature and birds. In fact, it gives them a whole exciting new world.

Let the children have their own garden, plant their own seeds and learn nature's marvels in their own way. Their life will be forever enriched if you do this for them.

Read These Few Words About Reliable Seeds

From good seeds only can good crops be grown. Yet a great many contingencies may arise to prevent the best seeds from giving satisfaction and for all these reasons we cannot, of course, guarantee or be responsible for a crop, as success is dependent upon natural causes, which are beyond human control. Therefore, we do not warrant in any way, express or implied, the contents, or the description, quality, productiveness or any other matter of any seeds, bulbs, or plants sold by us, and we will not be in any way responsible for the crop. If the purchaser does not accept these goods on above terms, no sale is made thereof, and he must return them at once, and money will be refunded. Subject to above conditions we make this sale, at the moderate prices at which we sell our goods.

We will appreciate receiving your order early this year.

Yours for success,
CHARLOTTE M. HAINES.

Chrysanthemums

Seeds of Beautiful ANNUAL FLOWERS

California Giant New California Giant Aster

Huge Fluffy Blossoms Which Resemble Chrysanthemums Almost as Much as Asters

This new class of Asters is second to none in the world today. It is entirely distinct inasmuch as each flower is borne at the end of a long stout stem which is 18 to 24 inches long and has no lateral growths along its entire length. Another feature is their extended period of bloom, the plants remaining in flower much longer than any other Asters I know of. Flowers are unusually large and beautiful with petals tightly curled over the entire flower. My mixture contains many colors ranging from pure white to purple. Pkt. 10c; 1/8 oz. 40c; 1/2 oz. \$1.30; oz. \$2.45.

Haines New Giant Comet

Or Mammoth Ostrich Plume

Grand American Asters, a magnificent strain of Comet or Ostrich Plume Asters, finer and larger than Crego and Astermum. The plants grow 18 to 24 inches in height, branching freely, each plant bearing from 20 to 30 magnificent flowers from 4 to 6 inches in diameter, composed of long, curled, twisted petals, forming loose, fluffy, globular heads. The whole flower has a distinctly feathery effect, greatly resembling that of the fine Japanese Chrysanthemums. Pkt. 10c; 1/8 oz. 25c.

American Beauty

Two Unusual And Desirable Asters

INDIAN SUMMER (New)

Now offered for the first time. The color also is new, being the favorite continental "Cinnabar." Flowers are of the Comet or Crego type, unusually large, 4 1/2 to 5 inches across, very double, with attractively twisted and curled petals. Pkt. 10c.

NEW SNOWBALL

A most profuse bloomer, a single plant often producing as many as 25 to 30 pure snow-white flowers, globular in form and of good size. Ten inches high. Pkt. 8c; 1/8 oz. 25c.

Haines New Everlasting

Something entirely new. A beautiful flower for Winter bouquets. The plant is grown the same as any other Aster and blooms from July to September. Pick the flowers when three-quarters open and hang them up with the heads down until dried. Mixed Colors. Pkt. 10c; 1/8 oz. 30c.

Haines Exceptional Aster Mixtures

HAINES SUPERFINE MIXED. An unusually fine mixture of many different forms and colors. Especially selected from the finest large sized, double-flowering types for those who are raising flowers for exhibition purposes. These flowers can be depended upon to be full double, no "yellow centers," and all are borne on long stems. Best and most brilliant colors. Pkt. 10c; 1/8 oz. 40c; oz. \$1.75.

GOOD MIXED. A splendid assortment of finest colors of leading varieties. For bedding and cut flowers this mixture is unexcelled. Pkt. 7c; 1/8 oz. 20c; oz. 90c.

SINGLE MIXED. Nearly 10 different colors and shades in this wonderful mixture. A bed of Single Asters in a mixture of colors is most beautiful. Pkt. 7c; 1/8 oz. 20c; oz. 90c.

Haines New

Anemone Flowered Sunshine Asters

The very newest novelty in Asters. The raised center, which gives this flower its unusual and attractive appearance, is of a different color from the outside petals, some of which are quilled and twisted; others straight and uniform. Height, 24 inches.

WHITE SUNSHINE. Pkt. 8c; 1/8 oz. 30.

PINK SUNSHINE. Pkt. 8c; 1/8 oz. 30c.

LAVENDER SUNSHINE. Pkt. 8c; 1/8 oz. 30c.

PURPLE SUNSHINE. Pkt. 8c; 1/8 oz. 30c.

COLLECTION. One packet each of White, Pink, Lavender and Purple Sunshine Asters, 25c.

MIXED SUNSHINE. All the above colors and others carefully blended to make a wonderful show. Pkt. 7c; 1/8 oz. 30c.

Haines Giant Crego Asters

Crego Asters are truly grand Asters and are of American origin. The flowers are immense, from 4 to 5 and often 6 inches across. The plants are of luxuriant branching growth, attain a height of 2 feet, each plant bearing from 20 to 30 magnificent flowers on very long strong stems which are borne in great profusion during August and September.

Haines New American Beauty Asters

Of the many Asters that are now grown, the American Beauty class continues a favorite everywhere. In the past few years this flower has been continually improved until it is now fully four to five inches in diameter. A great point in its favor is that it comes into its best bloom rather late—at a time when most other flowers are gone—and continues to blossom until frosts kill the plant to the ground. All four colors offered below come true from seed and are of fine form and size.

Carmine—Pkt. 10c; 1/8 oz. 40c.

Seeds of Beautiful ANNUAL FLOWERS

HAINES BEAUTIFUL PETUNIAS

Haines Fluffy Ruffles

Fluffy Ruffles

Beautiful Colors—Heavily Frilled and Ruffled—Large Size—Easy to Grow—Sure to Bloom

The originators of this wonderful strain of Petunias claim that the flowers will average 4 to 6 inches in diameter, but I am content in claiming a size of about 3 inches. However, the flowers are so heavily frilled that a blossom 3 inches in diameter is often 20 inches or more in circumference. Fluffy Ruffles commences to bloom very early, and continues in flower all through the summer until frosts kill the plant to the ground. Easily cultivated. All you need is a good soil and sunny location. Pkt. 15c.

Giants of California

A California Variety of Great Beauty, Size and Luxuriance

The flowers are of immense size, often measuring 5 to 6 inches across. The variety of colors, markings, veinings and blotchings distinguish them from all others. They are usually ruffled and fringed on the edges, and present a great variety of beautiful colors. With the exception of Haines Invincible Petunia, this is the finest Petunia ever grown. Equally desirable in the house or grown in beds out of doors. Seed is very fine and care must be used not to plant the seed too deep. Pkt. 15c; 2 Pkts. 25c.

New Golden Rose

Brilliant Orange Rose Color, with a Lighter Shade of Yellow in the Throat

This unusual color surely deserves a place with the finest novelties, as it is entirely different from any I have ever grown or seen. The orange rose color is the same throughout the flower, except that the throat is a lighter shade of yellow. In size, it is about the same as the other out of doors bedding varieties, with which we are all familiar. Its color is its greatest charm, and I can confidently recommend it to all. Pkt. 10c; 1/8 oz. 60c.

Flaming Velvet

A 1936 Gold Medal Winner. A hybrid variety of rich and brilliant velvety bloom—red or crimson flowers. Velvety texture. Outstanding for color, type and uniformity. Be sure to try this new and exquisite variety. Pkt. 15c; 2 Pkts. 25c.

Three New Petunias

One packet each of the three for only 38c, postpaid

BLUE BEE

An outstanding variety and a wonderful variety to use in any location where Petunias are grown. Flowers are of medium size and of a rich dark blue color. There are so few worth while blue flowers that my new Blue Bee will be a welcome addition especially in the so popular "Blue Gardens." Pkt. 10c; 3 pkts. 25c.

DOUBLE ROSY MORN

Just what you have been waiting for—the true Rosy Morn color in a double flower. Flowers are of medium size semi-double with heavy petals folding back from the center. Almost resembles a Gardenia in shape, while the color is of course that unmatched shade of rose-pink. Pkt. 20c; 3 Pkts. 50c.

THEODOSIA

So many have asked for this popular variety that I am now listing it with my other "Better Varieties." Large flowers of rosy-pink with clearly defined golden center with minute stripes. Flowers are heavily frilled or ruffled. Pkt. 15c; 3 Pkts. 40c.

Petunia Theodisia

Rose of Heaven

Rich Brilliant Rose Color with an Inconspicuous White Throat

A clear rosy pink flower of good size and very beautiful. The throat is nearly the same color as the petals, very few having the white throats so common in most pink Petunias. While not as large a flower as my wonderful Balcony Queen Petunias they are much larger than the Rosy Morn, which we have all known and grown for many years. A bed of Rose of Heaven Petunias is unusually attractive, and as they remain in bloom all summer, gives a delightful touch of color to a yard that might otherwise be dull and dreary. Pkt. 10c; 1/8 oz. 48c; 1/2 oz. \$1.40.

Haines Mammoth Flowered Invincible

The Largest and Most Beautiful Petunia Ever Grown

An entirely new class—distinct from any others in the exquisite colorings, and in the general appearance of the flowers. These must be seen to be appreciated as all are fringed and fluted in every conceivable manner. This is without question the largest, prettiest and most wonderful Petunia ever grown. Equally desirable in pots in the house or grown in beds out of doors. Seed is very fine and care must be used not to plant the seed too deep. The colors are startlingly brilliant—some solid colors, but mostly a combination of colors never seen before in one flower. All of my seed is hand picked, and selected from the largest and heaviest frilled flowers showing the finest colorings. Pkt. 15c; 2 Pkts. 25c.

Mammoth Invincible

World Beauty

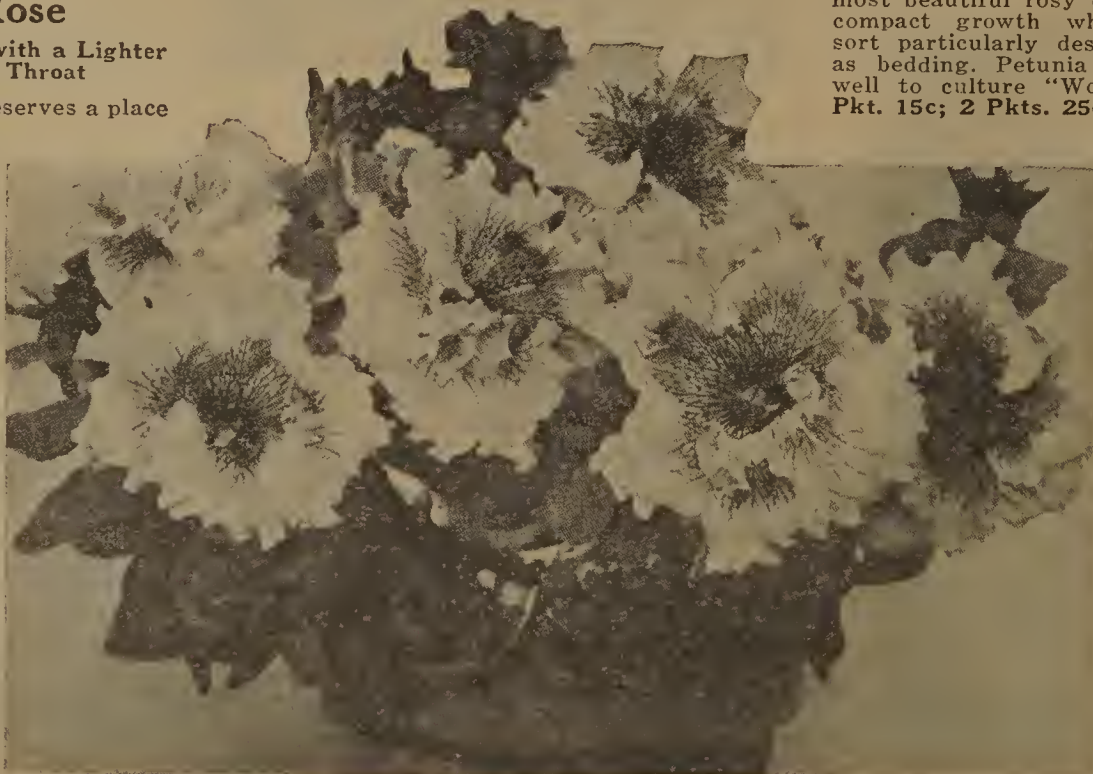

New Double Pink Fringed

It produces large double fringed flowers of the most beautiful rosy carmine color, plants of dwarf compact growth which makes this grand new sort particularly desirable for pot plants as well as bedding. Petunia growers will, we believe, do well to culture "World Beauty" in a large way. Pkt. 15c; 2 Pkts. 25c.

Star of California

Velvety Purple Shaded Crimson, with a Star-Shaped White Blotch

This is an outstanding variety of the Balcony type, but with the size and beauty of the California Giants. For window boxes, hanging baskets, and vases, this is what you have been waiting for. The stems are almost completely covered with rich purplish flowers, which are glorified with a sheen of crimson; but the crowning feature is the pure white star in the form of a blotch in the throat of each blossom. The branches are extra long, and hang over the edge of the box or vase, presenting a beautiful appearance. Pkt. 15c.

Fancy Fringed Double

Fancy Fringed Double

My Double Petunias Have Made Me More Friends Than Any Other Flower I Grow

A mixture of the best large flowering and fringed double Petunias. It embraces a wide range of colors and shows finer combinations than we have heretofore found in any double Petunias including delicate mauve, porcelain blue, white, garnet and velvet shades. This carefully hybridized seed will yield a larger percentage of double flowers than any other. Pkt. 20c; 3 Pkts. for 50c.

Single Flowered Bedding Petunias

There is nothing prettier than a bed of Petunias all of one color. They are especially adapted, not only for use on the lawn, but for porch boxes, hanging baskets and other similar places. I offer what I have found to be the most suitable.

HOWARD'S STAR. This is a beautiful old rose color with a well defined star-like stripe radiating from the throat to the edge. Pkt. 10c; 1/8 oz. 60c.

NEW ROSY MORN. This Petunia is unequalled for porch boxes, hanging baskets, etc.; color is a very pretty soft carmine pink with white throat, also makes a fine display when grown in masses in the flower bed. Pkt. 10c; 1/8 oz. 60c.

SNOWBALL. Dwarf, compact plant with pure, satiny white flowers of good size which literally cover the plant during the entire season. Pkt. 10c; 1/8 oz. 60c.

STRIPED. A very showy sort, the flowers being beautifully striped and blotched in a variety of colors. Pkt. 10c; 1/8 oz. 60c.

COLLECTION. One packet each of the four beautiful bedding Petunias described above for only 30 cents.

HYBRIDA SINGLE. This mixture is composed of many colors and is a very fine bedding variety. Good Mixed. Pkt. 10c; 1/8 oz. 32c; 1/2 oz. 95c.

Single Flowered Bedding

New Balcony Queen Petunias

Large Flowers—Solid Colors—Startlingly Attractive

A splendid free-flowering type of Single Petunias, growing about 12 inches high, with flowers averaging 3 inches across; of special value for windows or porch boxes and vases, but equally effective in beds or borders. The Balcony Petunias may be depended upon to supply an unsurpassed floral effect until frost. While most of the Balcony Petunias have straight edges, my new Pride of Portland is beautifully fringed.

PRIDE OF PORTLAND—The Fringed Balcony Petunia. A decided sensation in Balcony Petunias, being exquisitely fringed. This variety comes from Oregon, and is of a beautiful rose-pink color. Pkt. 15c; 2 Pkts. for 25c.

BALCONY QUEEN (Rose)—Bright rose flowers with white throats. A profuse and continuous bloomer which grows quickly and luxuriantly. Pkt. 10.

BALCONY QUEEN (Dark Red)—A clear bright scarlet red color. One of the finest. Pkt. 10c.

BALCONY QUEEN (Purple)—The darkest of all, and unusually showy and attractive. Pkt. 10c.

BALCONY QUEEN (White)—A magnificent pure white. The flowers are not only very large, but are borne abundantly, blooming until frost. Pkt. 10c.

COLLECTION—One packet each of the five Balcony Petunias listed above for only 40 cents.

BALCONY QUEEN (Mixed Colors)—The above and other colors carefully blended to make an attractive display. Pkt. 10c; 3 Pkts. for 25c.

New Picotee Zinnia

HAINES CALIFORNIA GIANT ZINNIAS

Fully as large as the Dahlia Flowered, they are of the true Zinnia type, flat without the conical center, being nearly a solid face with loosely placed petals. I have grown flowers fully 5 inches in diameter. Plants are of robust habit, attaining a height of about 3 feet, and should be given 18 to 24 inches between each to allow for full development; they bear numerous semi-globular mostly very double flowers on long, strong stems, all of the largest size, making them of great value in large beds, borders, etc.; grown under favorable conditions they remain in bloom from early summer to late autumn. I offer the colors separately, as well as a splendid mixture of many colors.

LEMON QUEEN. This is of immense size, color light canary on the upper and cerise on the lower side. It is also unique inasmuch as it carries a pleasant odor. Pkt. 10c; 1/8 oz. 30c.

ORANGE KING. This is a striking shade and can be compared favorably with the color of the Calendula from which it takes its name. Pkt. 10c; 1/8 oz. 30c.

PURITY. Like the Dahlia Flowered Polar Bear, this is a clear white. It has lost the greenish tint that has made white Zinnias unpopular in the past. Pkt. 10c; 1/8 oz. 30c.

ROSE QUEEN. This flower opens first as bright rose with a deep rose red center and gradually develops into a warm deep rose when in full bloom. Pkt. 10c; 1/8 oz. 30c.

Collection

One packet each of the four colors described above for only.....30c

MIXED. The above four colors mixed in equal proportion makes a splendid show of bright colors. Pkt. 10c; 1/8 oz. 30c; 1/2 oz. \$1.00.

ZINNIA

Mexican or New Star

An Unusual Variety of Single Star Shaped Flower

This new and beautiful flower is the only Zinnia ever grown which comes absolutely single and when open shows the true star shape. It is peculiar in its construction; not double, not single—as the word is usually interpreted—nor yet could it be called crested. It must be seen to be appreciated. Flowers are of good size, usually 2 inches in diameter and of good intense colors. Nearly every color known is there from crimson to white, besides color combinations. Petals are rich and velvety, and appear almost artificial in their perfection. Plants are dwarf, and hold the flower stem erect, presenting a beautiful appearance. Pkt. 8c; 1/8 oz. 24c; 1/2 oz. 75c.

Snapdragons

Beautiful New Varieties Which Should Be in Every Garden

Giant Snapdragons have become immensely popular in the last few years. This is not to be wondered at, as there are few flowers which for gorgeous coloring can match this Snapdragon and are as valuable for cut flowers as for show in the garden. The plants grow 2½ feet high, are of healthy, robust growth, with deep green foliage, free and continuous blooming, producing immense spikes with enormous flowers, double the size of the older sort, and of great fragrance. Spring sown seed outdoors produces flowering plants in July, remaining in bloom until frost. For earlier flowering, start indoors and transplant when weather is suitable. Their ease of culture, independence of heat and drought, continuous blooming qualities, and their magnificent, bright colors should entitle these Snapdragons to a place in every garden.

HAINES BEAUTIFUL STOCKS

Haines Evening Scented

The Unequalled Perfume Plant

No annual in cultivation, even including Mignonette, surpasses this in the delicate perfume of its flowers. The pink and lilac blossoms are partially closed during the day, in a yard, but expand and produce their fragrance in the evening. A few plants growing will emit a delicious perfume which may be detected half a block or more away. While the flowers themselves have no particular beauty, the plant is well worth growing for its delightful fragrance. Annual 18 inches high. Pkt. 8c; ⅛ oz. 12c; ½ oz. 36c.

Ten Weeks Snowball

Large-flowering, snowy-white flowers, very double and perfect in form. As a pot plant it is greatly superior to any other variety flowering for a long period, and at any time of the year, according to time of sowing. About 2 feet high. Pkt. 10c; ⅛ oz. 50c; ½ oz. \$1.25.

Beauty or Giant Nice

Two feet high with numerous long spikes of unusually large, very double and delightfully fragrant flowers. They make fine bedding plants but are of greatest value as pot plants and the splendid trusses are unsurpassed for table and other floral decorations. They do not flower as quickly from seed as Ten Weeks Stocks, but require about 12 to 15 weeks. Mixed colors. Pkt. 10c; ⅛ oz. 42c; ½ oz. \$1.10.

Poppy Nudicaule—Amurenses Yellow

This new, very large-flowered bright buttercup yellow Iceland Poppy is an excellent running mate to The Emperor and The Empress, listed on page 26 of this book, although it differs somewhat from other Nudicaule types in that the leaves are glaucous, heavily covered with short hairs. The stems are unusually long and wiry, 24 inches or longer, and the flowers will keep as long as 10 days when cut. It blooms slightly later than the Nudicaule varieties, is much more heat and drought resistant than any other Poppy, and comes 100 per cent true to color. The flowers are freely produced, making it a very showy subject in the garden as well as a profitable variety for the cut flower trade. Pkt. 25c.

Cornflower—Jubilee Gem

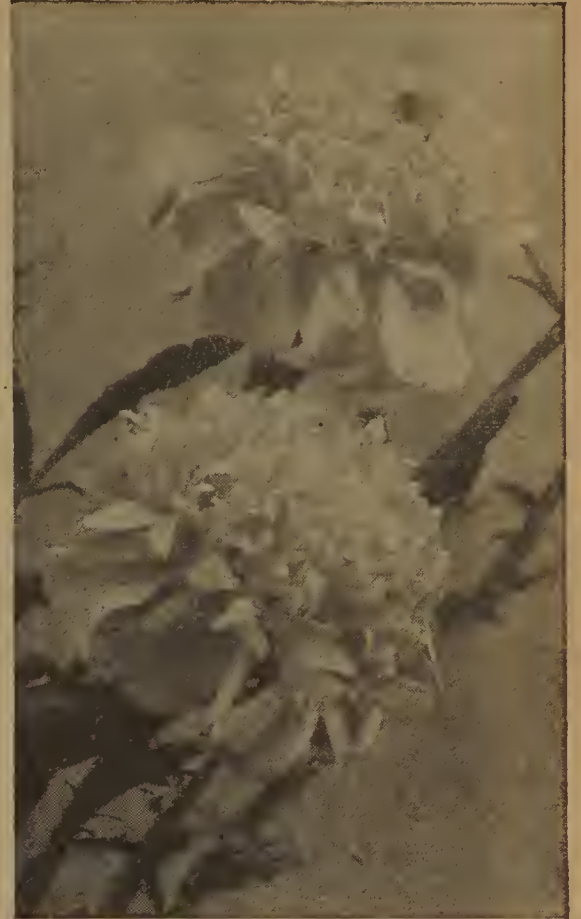

Jubilee Gem is a dwarf variety of Cornflower making a compact plant literally covered with flowers. It has foliage distinct from all other Cornflowers, forming a tufted mass of bright green, contrasting well with the dark but vivid double blue flowers. The plant grows about 12 inches high. As an edging plant, a border plant, or for ground work in formal beds, it will be found admirable; it is a fine cut flower. Pkt. 25c.

Zinnia Fantasy Star Dust

Marigold Crown of Gold

Verbena Hybrida—Grandiflora Crimson Glow

In all the rather long list of Hybrida Grandiflora Verbena varieties there has been none in a crimson shade until this present introduction, Crimson Glow, which now provides this very necessary shade to round out the color range. The flowers are pure, self-colored, glowing crimson, wholly without even a small light eye. The individual florets are of good size, although as a characteristic of the reds in Verbena, they are not as large as some other colors, such as pink and lavender. The flower heads are freely produced on plants which are neat and semi-compact in habit. Pkt. 25c.

Zinnia Fantasy—Star Dust

Fantasy is one of those types which you either definitely do or do not like. To those who definitely do like this informal Zinnia, Star Dust will be welcomed with enthusiasm. It has the same shaggy-petaled, medium-sized flower as the mixture—a delicate, graceful bloom. The color is a rich deep golden yellow, one of the vibrant shades closely associated with Zinnias, while the very free flowering, $2\frac{1}{2}$ to 3 foot plants are early blooming, coming into flower about 45 to 50 days from the time of planting. Pkt. 25c.

LAWN GRASS SEED and FERTILIZERS

Our Famous Lawn Grass Seed

MAKES A PERFECT LAWN. HARDY, LUXURIANT, ALWAYS GROWS

How to Have a Beautiful Lawn

Our lawn grass seed produces a perfect and enduring lawn of luxuriant richness, with closely interwoven, firm, deep and elastic turf, is generally ready for mowing in six weeks from time of sowing and is composed of a thoroughly balanced combination of native and foreign fine-leaved, deep-rooting grasses of interweaving habit, that flourish under varied conditions, soils and climates, growing during different seasons of the year, so that a deep green, smooth and velvety sward free from clumps is maintained from snow to snow without burning brown in the hot months of summer. A lawn may be established either by "sodding" or "seeding." The latter is not only much less expensive but much more satisfactory, as better grasses can thus be obtained, and the quality and variety of the grasses have a great deal to do with appearance and the permanency of the lawn.

PETUNIAS

VERBENA

DUSTY MILLER

AGERATUM BLUE STAR

Ruffled Giant Single Petunias

Bloom All Summer

Single Petunias are unsurpassed for massing in beds and border planting. They are also fine for basket, vase and window boxes. Their richness of color, duration of bloom and easy culture will always make them very popular. The plants bloom early and continue until nipped by the frost. Plants in mixed colors.

California Giant Zinnias

In this flower we have the finest colors, in a type never before seen. Fully as large as the Dahlia Flowered, they are of the true Zinnia type, flat without the conical center, being nearly a solid face with loosely placed petals. The petals are imbricated and the flower from a small bud to the fully opened blossom presents a graceful appearance.

Mammoth Verbenas

In every respect is one of our most desirable bedding plants, blooms freely and constantly and the various colors and shades of flowers are almost without limit. Trim slightly in the early stages of growth.

Dusty Miller

(Centaurea Gymnocarpa)—The Dusty Miller used for edging beds of Coleus, Geraniums, Cannas, etc., also used effectively in hanging baskets, porch boxes, etc. Leaves silvery-white.

Red or Green

Achyranthes

Indispensable for bedding purposes. Brilliant tinted leaves forming a marked contrast with all other plants.

Alternantheras

The Lettering Plant

Beautiful dwarf plants. Adapted for edgings to flower beds or ribbon lines; variegated foliage of crimson, yellow and green.

Haines Beautiful Alyssum

CARPET OF SNOW—This plant is even dwarfer than the Little Gem. Only about 3 inches. It begins to bloom when quite small, and the plants are a solid mass of white from spring until late in the autumn. For borders of beds it is the very finest plant you could have.

Ageratum

LITTLE BLUE STAR—Plants suitable for mass bedding for edging, or as pot plants for summer and winter bloom. They bear beautiful blue flowers in the greatest profusion.

Haines Giant Exhibition Pansies

A Mixture of Large Flowered Varieties and Unusual Colors

This mixture contains all my varieties and a great many more shades, tints and combinations of colors, and is unsurpassed in variety of coloring, marking, veining, etc. The flowers are all of mammoth size, unusually heavy substance, presenting a bold, open face, most are five, some three blotched; some are ruffled and a large number very fragrant. 35c doz., 3 doz. for \$1.00.

Lobelia Gracilis

INDIGO-BLUE—Splendid bushy little plants, with fine foliage of bright, wing-shaped flowers. Flowers deep indigo-blue. Excellent for window-boxes, hanging baskets and vases. A very attractive and dainty flowering plant.

Haines Beautiful Asters

Mammoth Branching

A magnificent American Aster distinct from all other varieties. Strong sturdy plants, 18 inches high, bearing on long stems massive, double flowers 5 inches across; the petals of which are long, narrow and folded lengthwise, which gives them the appearance of being quilled.

Brilliant Salvias

They grow in bush form two to two and one-half feet high. The foliage is dense, forming a mound of vivid green, surmounted by blazing red flowers.

Snapdragon

A single plant will produce a dozen or more spikes of solid colored flowers at one time. The size, colorings and the lasting qualities of the spikes when cut, which are remarkable for so dainty a textured flower, place them as a rival of Orchids for decorative purposes. They may be grown in pots, beds or clusters.

RED SNAPDRAGON—Giant blood-red flowers.

BRONZE SNAPDRAGON—A soft dainty bronze.

FUCHSIA

Gloxinia—Hybrida

One of the Most Beautiful Flowers that Bloom

For garden beds or massing, the Verbena is unrivaled; flowers of the most brilliant color, blooming continually from spring until late in the autumn. Calendula—Orange Shaggy

This variety was a winner of a Gold Medal in the 1935 All America Selections. The flowers are the new lacinated petaled type, deep orange in color and exceedingly graceful and informal in appearance. It is excellent for use in the garden and for cutting. Pkt. 15c; 2 Pkts. 25c.

Calendula—Campfire

The color of this exquisite variety is a deep strong orange with a distinct scarlet sheen on the upper side of each petal. While the center is light, this is scarcely noticed because of the complete doubleness of the fire. Blooms are flat across the top, and measure at least four inches in diameter. This strain is especially developed for the cut flower trade. Pkt. 15c; 2 pkt. 25c; 1/8 oz. 40c.

There is much satisfaction in a bed of Zinnias with their twisted and recurved petaled flowers in many bright colors and when nearly every other flower has been killed by frost this plant is still in full bloom. Rose Growing Made Easy

Don't Bother with Budding or Grafting. Briar is Always a Nuisance.

With roses on their own roots, there is never any of this trouble. Should the bush be cut down by frost at any time and the roots not harmed, real rosewood is again produced in the spring. On the other hand, many amateurs have set out to plant a rose bud and secured the best of budded stock but in a year or two have had only briars for their trouble. All our roses are grown on their own roots.

CHRYSANTHEMUMS

Hints on Growing Chrysanthemums

The plants may be set out any time the ground can be worked, from early spring until the first of July. They prefer a sandy clay soil with a mixture of well-rotted manure. Chrysanthemums are gross feeders. Do not allow more than four shoots to grow, and remove all lateral buds, leaving the main bud untouched. If the flower buds form in early summer or spring, remove them. This will not interfere with autumn blooms. The Pompon or Button varieties do not need disbudding.

NEW BUDDLEIA HARTWEGI

A 1937 INTRODUCTION

Buddleia Hartwegi is undoubtedly the finest of all summer flowering Butterfly Bushes. As a summer cut flower plant and as an ornamental lawn shrub it is unsurpassed in beauty and usefulness. The large bright lavender panicles have remarkable substance and harmonize in arrangement with other summer flowers. The flowers do not "sunburn" as do the other varieties, and the tip flowers on the panicle open before the basal flowers have faded. The individual flowers are closely spaced on the panicles, imparting a compact and pleasing appearance. The foliage is very heavy and is rich dark green. Buddleia Hartwegi is hardier than any of the summer flowering Butterfly Bushes, having lived through the severe winter of 1935-36 without protection and with only slight loss. 60c each; 3 for \$1.50, postpaid.

Garden Roses

Hardy Everblooming

RED COLUMBIA

Brilliant red flowers of large size; petals enormous; very fragrant. A strong, vigorous and healthy grower; very free flowering.

GOLDEN EMBLEM

A most vigorous grower of erect branching habit; beautiful, brilliant green foliage; long pointed buds carried on long, stiff stems. Very large full flowers with elongated deep petals. Color, a most striking sunflower-yellow, deeper in the center without any color blending and which is retained without fading even in the warmest weather.

LA CHAMPAGNE

Large, globular, peony-flowered blooms of pearly blush, shaded salmon-pink, the outside of the petals being vermilion and rose, which lovely combination is not affected by the hottest sun. Plants strong, of erect and vigorous growth, and with a blooming habit taking it clear through the season and until late autumn.

MRS. AARON WARD

The flowers, which are of splendid form, are full double and are equally attractive when in full bloom as in the bud state. The color is a distinct Indian yellow which under certain conditions becomes yellow tinted white.

RED PREMIER

A new red variety. The color is a bright scarlet shading to a deeper red as they develop; high centered full double flowers; a vigorous grower and free flowering.

LADY ALICE STANLEY

The flowers are large and of more than ordinary beauty. The deep imperial pink on the outside of the petals and the shining silvery pink on the inside make a double colored bloom.

Haines Beautiful Zinnias

There is no flower can equal the Zinnia for effect and lasting quality and in our new Dahlia Flowered Zinnias we have a strain that must be grown to be appreciated. Colors that are found in no other flower. Long strong stems and in bloom continuously until frost.

1 New Dahlia Flowered

MIXED COLORS—Nothing like it ever seen in a Zinnia. Flowers mammoth in size and in appearance more like a Dahlia than a Zinnia. Colors range from dark purple to white. Pkt. 10c; ½ oz. 30c.

2 Zinnia—Fantasy

Here is a really different flower that you will surely want in your new garden. Instead of the stiff formal petals which I find in most Zinnias, this has informal, shaggy, graceful flower heads which are most interesting. Beautiful in the garden and a lovely cut flower. Finest mixed colors. Pkt. 15c; 2 Pkts. 25c.

3 Scabiosa Flowered Finest Mixed

On a single corona of outside petals stands a semi-globular crown with a large number of small florets giving a most interesting effect, similar in form to the flowers of the Scabiosa. Pkt. 15c; 2 Pkts. 25c; ½ oz. 40c; ¼ oz. 70c.

4 Miniature Lilliput Zinnias

MIXED COLORS—All the above and many other colors and shades of this dwarf, double class of Zinnias. Pkt. 10c; ½ oz. 20c; ¼ oz. 30c; oz. 95c.

SPECIAL OFFER

One packet each of the four Zinnias illustrated on front cover

Lovely Garden Annuals

Everlasting

Strawflowers

Cut the flowers with as long stems as possible, when about half open, strip the foliage from the stems, and tie together in loose bunches. Then hang them up with the heads down, in a cool, dark, dry place until thoroughly dried and cured. They will retain their vivid colors and last nicely all winter. Pkt. 10c; ½ oz. 25c.

Canterbury Bells—

Annual

No more trouble with waiting two years for the Biennial variety to come into flower. This new annual strain, now offered for the first time, will blossom early in the summer from spring sown seed. Same beautiful colors and attractive appearance as the older variety. Pkt. 15c; 2 Pkts. 25c.

California Poppy—

Eschscholtzia - Ramona

The daintiest of the California poppies, and a variety that easily takes precedent over all the others. Edges of the flowers are exquisitely frilled, giving an almost double appearance. Color is glittering coppery gold with pink shadings. 2 feet high. Pkt. 8c; ½ oz. 25c.

Virginia Stocks

This delightful old favorite should be grown by all modern flower lovers. This variety grows about one foot high and blooms continuously in spring and summer. The plants are light green and produce quantities of four-petaled single flowers, with a faint perfume. These come in shades of red and white. The plants bloom for many weeks. Mixed colors. Pkt. 8c; ½ oz. 14c; ½ oz. 40c.

Mammoth Verbenas

For garden beds or massing, the Verbena is unrivaled; flowers of the most brilliant color, blooming continually from spring until late in the autumn. Verbenas are more easily grown from seeds than from cuttings and such plants are more vigorous and free flowering, and the range of color more vivid than in any other mixture. Pkt. 8c; ½ oz. 25c.

PLANT SHIPMENTS—I always recommend having plants sent by Express, when there is an Express Office near, as I can usually send somewhat larger plants, and do not have to wash the soil off the roots (as in the case when sent by Mail). Kindly write your list of plants, bulbs and roots all together (not mixed up with the seeds) so as to prevent any mistake upon the part of our clerks in copying the order. *I do not ship plants to Canada and foreign countries.*

Please Notice—We Cannot Ship Oranges or Lemons to California, Florida, or Mississippi.

Please order nothing but plants and bulbs on this sheet
